

CeloNova BioSciences, Inc. Response to COVID-19

As our company responds to the dynamic circumstances surrounding the COVID-19 pandemic, the health and safety of our employees, customers and patients remains our top priority.

As a result, we have taken, and will continue to take, decisive action to ensure that COBRA PzF NCS remains available to you. We have implemented steps to protect our supply chain and to ensure that our ability to offer COBRA PzF NCS remains strong during this time.

We are monitoring the situation locally and nationally and continue to follow the federal, state, and local guidelines for employee safety, and have implemented employee remote work options and increased safety measures to help mitigate the spread of the virus for those roles that cannot be conducted from home.

Just as in any other time, our people remain available to you. We are committed to supporting our customers and patients while carefully following hospital protocols and government mandates.

Given the fluidity of the situation, if new information arises, we will communicate immediately through this site.

For current information on COVID-19, we recommend viewing the CDC's website at <https://www.cdc.gov/coronavirus/2019-ncov/index.html>.

Should you have specific questions, please contact your CeloNova regional account manager or email info@celonova.com.

Thank you,

The CeloNova Team
